Aninver an IMC Worldwide Company

Aninver InfraPPP Partners S.L. is a global management consultancy part of IMC Worldwide Ltd Group (UK), an international development consultancy with roots in the planning, design and management of global infrastructure projects, but working today in many different areas of activity. We have more than 50 years' experience and have worked in over 80 countries and territories for a range of public and private sector clients.

We have more than 400 employees in our 10 offices around the world, with our head office located in the UK (South London). We maintain a network of world-class experts who provide professional expertise on our projects. We have built strong long-term relationships with our clients and our consultants based upon our reputation for reliability, commitment, quality and experience. IMC's technical expertise and experience encompasses a wide range of sectors.

We partner with communities, governments, aid organisations and the private sector to help connect the most disadvantaged populations with services, resources and one another. In 2018, we delivered 160 projects across 40 low- and middle-income countries, including many affected by crises and conflict. We help countries develop 'hard' infrastructure such as disaster-resilient schools, water networks and roads that link rural communities to markets. We also advise on 'soft' infrastructure, such as the institutions, systems and skills required to deliver public services, strengthen the private sector, attract investment and support inclusive growth. We harness the potential of communication and innovation to accelerate socioeconomic development and we monitor, evaluate and generate learning from aid programmes to maximise their impact. Experts in Knowledge Sharing

In today's world, one of continuous change, organizations cannot afford to be static. Knowledge professionals promote and enable the change that is necessary for businesses to thrive. Aninver has a unique market positioning: we provide strategic advice but we also own and manage knowledge platforms.

Our differentiated positioning allows us to provide our clients with the latest solutions to complex problems, especially when they relate to generating, compiling and distributing knowledge. With a focus on Problem Solving, we deliver implementable solutions that help our clients to stay competitive and meet the challenges of today's market.

A truly global firm with a focus on **Emerging Economies**

Aninver is focused on emerging economies, especially in Africa, Latin America and Southeast and Central Asia. As part of IMC, we have access to a network of +10 offices across the globe. The map below illustrates the countries where we have worked.

Although we also serve clients in the most developed markets, especially through our specialized online platforms and research services, it is in the developing world where we are better positioned as strategic advisors. Our multidisciplinary team works in English, French, Spanish, Portuguese and Russian.

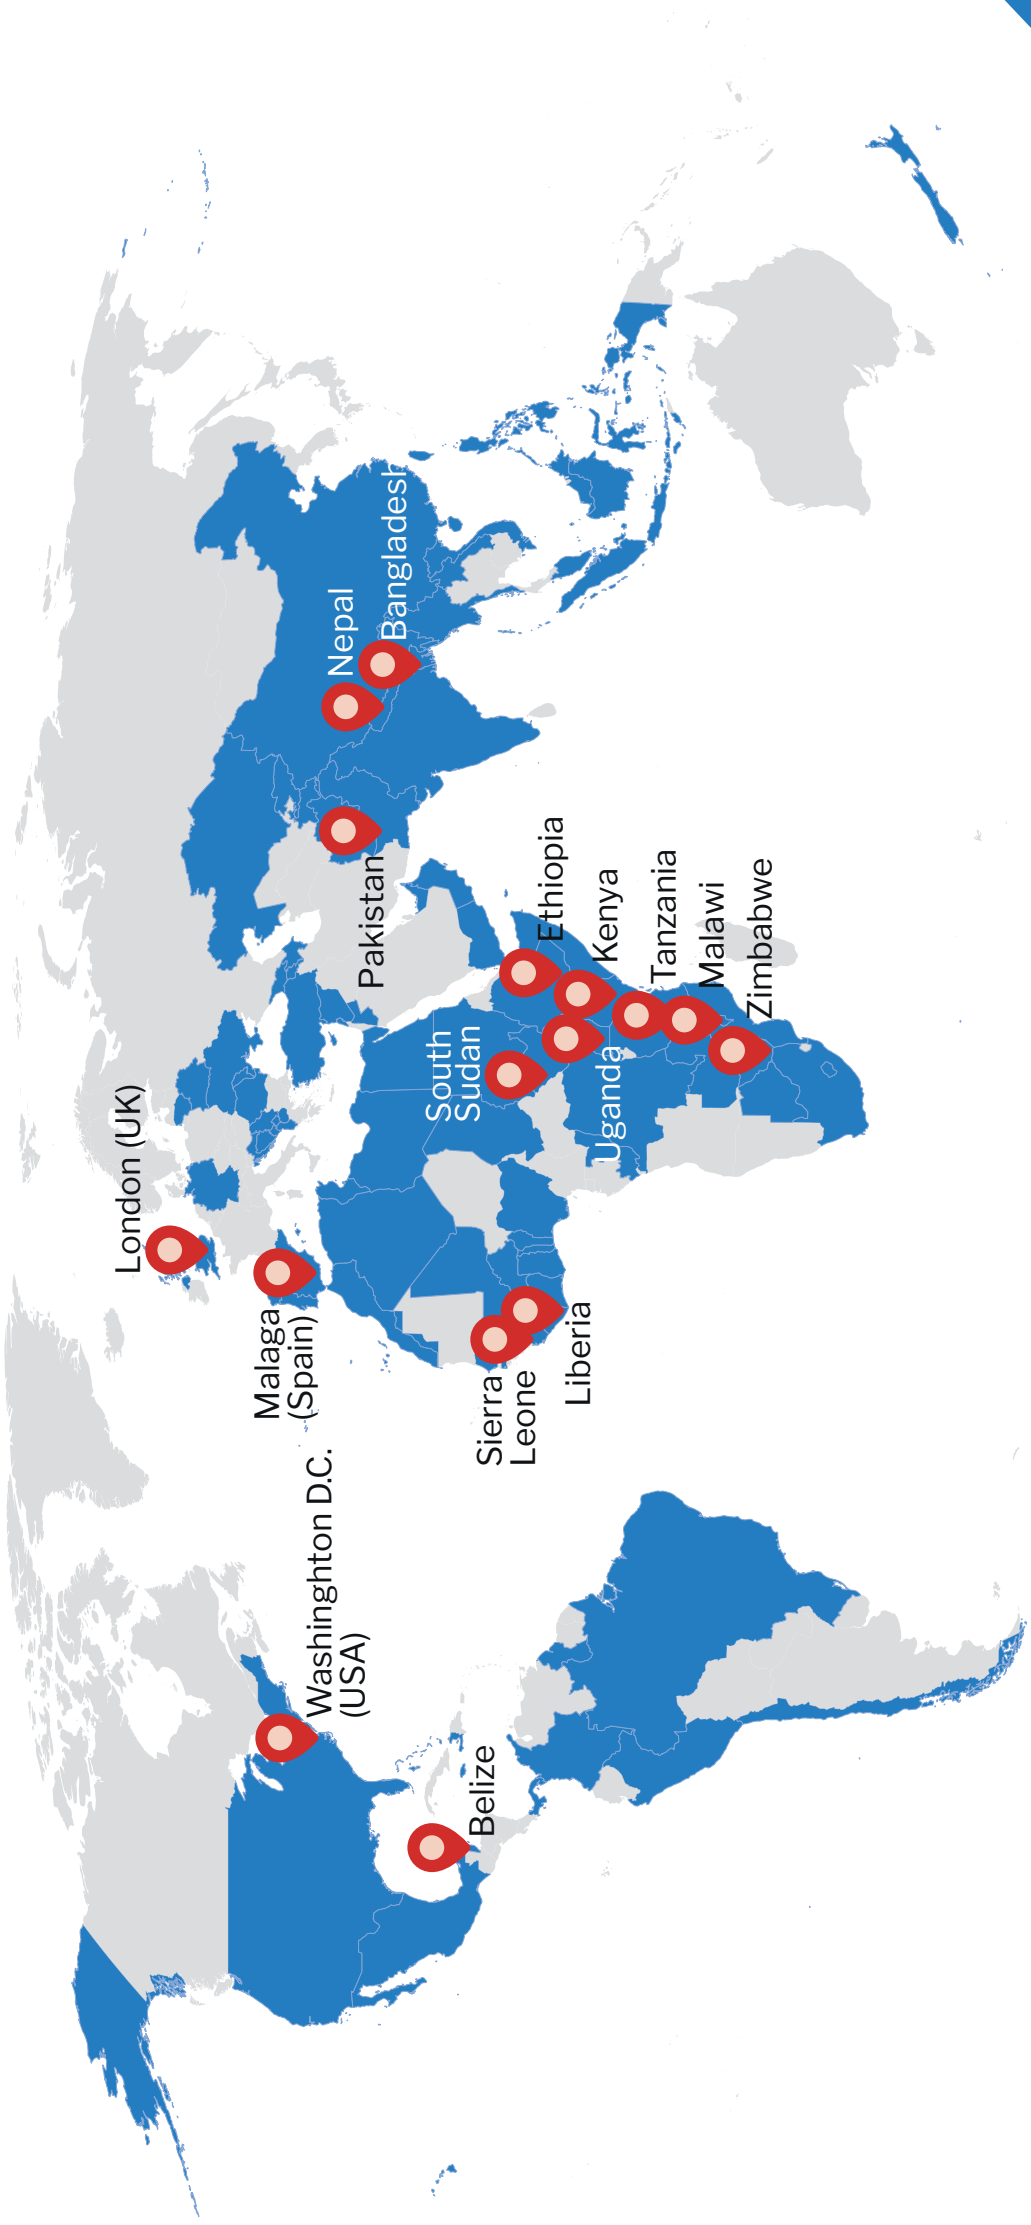

Specialized in working with **Development Financial Institutions**

Aninver has worked for some of the most renowned Global Development Financial Institutions (DFIs), such as IFC, EBRD, World Bank, Islamic Development Bank and African Development Bank. From analysing potential investments for clients like EBRD and IFC, to working on issues related to Climate Change for the World Bank or designing a commercial strategy for the private sector for the African Development Bank, serving DFIs is our core activity.
