Committed to sharing knowledge

Market intelligence and development advisors

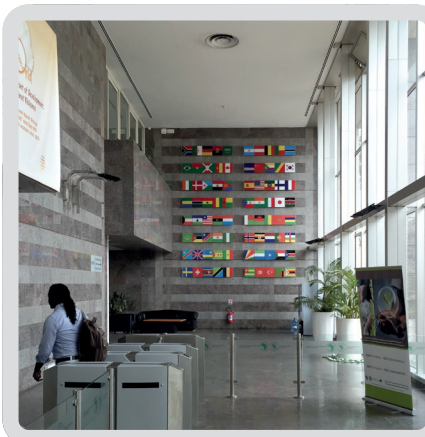

## Experts in Knowledge Sharing

In today's world, one of continuous change, organizations cannot afford to be static. Knowledge professionals promote and enable the change that is necessary for businesses to thrive. Aninver has a unique market positioning: we provide strategic advice but we also own and manage knowledge platforms.

Our differentiated positioning allows us to provide our clients with the latest solutions to complex problems, especially when they relate to generating, compiling and distributing knowledge. With a focus on Problem Solving, we deliver implementable solutions that help our clients to stay competitive and meet the challenges of today's market.

## Specialized in working with Development Financial Institutions

Aninver has worked for some of the most renowned Global Development Financial Institutions (DFIs), such as IFC, EBRD, World Bank, Islamic Development Bank and African Development Bank. From analysing potential investments for clients like EBRD and IFC, to working on issues related to Climate Change for the World Bank or designing a commercial strategy for the private sector for the African Development Bank, serving DFIs is our core activity.

## Our mission and how we work

We have a clear mission: help our clients to make better decisions and define impactful and implementable solutions for their complex management problems. Our team works very closely with our clients, helping them to improve and grow in today's competitive environment. We do so full of entrepreneurial spirit, aspiring to make the world a better place and with a strong focus on private sector development and digital transformation.

## A truly global firm with a focus on Emerging Economies

Aninver is focused on emerging economies, especially in Africa, Latin America and Southeast and Central Asia. We have worked in countries such as the Philippines, Ghana, Brazil, Benin, Ivory Coast, Togo, Ethiopia, Egypt, Morocco, Tunisia, Kenya, Nigeria, South Africa and many others.

Although we also serve clients in the most developed markets, especially through our specialized online platforms and research services, it is in the developing world where we are better positioned as strategic advisors. Our multidisciplinary team works in English, French, Spanish and Portuguese.

## Global experience

## Areas of expertise

### Infrastructure & PPPs

As strategy and financial advisors on infrastructure and PPP projects we work on an ample range of infrastructure consulting assignments for Private Investors, Sponsors, Development Institutions and Public Bodies.

### Social development, Entrepreneurship & SMEs

We advise development institutions on entrepreneurship and private sector-related issues. Social development is a prominent component of many of our studies in emerging economies.

### Climate & Environment

Sustainability and fighting climate change are at the core of Aninver's mission and activities. As advisors we often assist clients on climate and environmental problems, sometimes as part of more complex realities.

### Knowledge sharing & Technology

At Aninver we believe that technology is a source of competitive advantage. We apply technology to our internal processes, to our business (we develop and manage online market intelligence platforms) and to our clients.

### Tourism & Hospitality

We are specialized in dealing with tourism matters and hotel assets, from feasibility studies for new hotel developments to tourism master plans or strategies for destinations in emerging or well-developed destinations.

### Strategy Consulting

As advisors, we have developed a rapid but solid market positioning working for top public and private clients. We are management consultants and work collaboratively with experts in different fields.
